Your SBA Preferred Lender.

Different.

A bank here, a bank there.

Banks just about everywhere...

But this Bank, this
First Community Bank —
so *very* different, this Bank.

Home-grown and home-owned, for one thing. Three locations, nine local directors and 28 employees who have lived, worked, played and given back to this thriving neighborhood we call Sonoma County for more than 700 years combined.

Tuned in, this Bank is: to how you live, to the opportunities you seek, to the boost you need to make dreams happen. Flexible, attentive, able to turn on a dime and decide on a whole lot more — quickly, openly, with the integrity of neighbors who just happen to staff a Bank that is like no other bank at all.

Beyond the flowcharts and spreadsheets, how do you measure intensity of purpose?

How do you determine who wants your business deep in their bones? Is there a limit to the desire for success, and to its ability to lift up everyone in its wake?

Case in point: First Community Bank. A different kind of bank, built on a mountain of experience and pure, unadorned determination. A kind of ferocity with high moral purpose—to do well, to do it right, and to do it *every* time.

Delighted.

Oh, the pleasure of it all.

When you can consider each client's circumstance, when you can use experience and creativity to fund a business, a property, a hope, when you can help make a wish into something palpable—bankers live for all that. At least they do at this Bank...

First Community Bank.

Pure delight—that's what we're after. In our clients, in the flexibility we bring to each deal, the projects that emerge, the community that is enhanced. In all the good things of life that good banking makes possible.

Meet Our Starting Five

There are banks, yes.

So many banks...

Then there is *this* Bank.
First Community Bank.

So very different, this Bank.

Programs, sure. All banks have programs. Rates, points, products galore. But this Bank, this First Community Bank—it's more. More out and about. More willing to dazzle, to decide, to deliver.

And home-grown, oh yes. The five people pictured here: A cumulative 116 years of living in Petaluma. All industry veterans, all drawn to this Bank because they're convinced—as you will be, too—of its already emerging identity as a Bank that is like no other bank at all.
